CHARACTERS

Conditions (Quick Reference)

Blinded
- Fails sight-based checks
- Attacks vs you: advantage; your attacks: disadvantage

Charmed
- Cannot harm charmer
- Charmer has advantage on social checks

Frightened
- Disadvantage on checks/attacks (while source in sight)
- Cannot move closer to source

Frozen
- Incapacitated; cannot move/speak
- Fails Dexterity saves; attacks vs you have advantage
- Primed (Cold); detonation ends condition

Grappled
- Speed = 0; no speed bonuses
- Ends if grappler incapacitated or target moved away

Deafened
- Fails hearing-based checks

Incapacitated
- Cannot take actions or reactions

Exhaustion (6 Levels)

1. Disadvantage on ability checks
2. Speed halved
3. Disadvantage on attacks/saves
4. HP max halved
5. Speed = 0
6. Death

- Effects stack cumulatively
- Long rest reduces level by 1 (with food/water)

Indoctrinated (Optional Campaign Condition)
- Caused by prolonged exposure to Reaper tech
- Every 24h: DC 10 Wisdom save (DC increases over time)
- Failure: gain 1 level of indoctrination

Player Skills

- Strength
  - Athletics
- Dexterity
  - Acrobatics
  - Sleight of Hand
  - Stealth
  - Vehicle Handling
- Intelligence
  - Electronics
  - Engineering
  - History
  - Investigation
  - Science
- Wisdom
  - Insight
  - Medicine
  - Perception
  - Survival
- Charisma
  - Deception
  - Intimidation
  - Performance
  - Persuasion

Types of Damage

- **Acid.** The corrosive spray of a chemical and the dissolving enzymes secreted by thresher maw spit deal damage.
- **Bludgeoning.** Blunt force attacks - hammers, falling, constriction, and the like - deal bludgeoning damage.
- **Cold.** The painful chill from a cryo beam breath deal cold damage.
- **Fire.** Many tech spells use plasma and flames to deal fire damage
- **Force.** One of the primary biotic damage types. Mass effect fields that pummel, pierce, or apply pressure deal force damage.
- **Lightning.** Shock damage. Any damage done by an electrical discharge or source. Deals double damage to shields.
- **Necrotic.** The second biotic damage type. Necrotic damage uses dark energy and mass effect fields on a subatomic level.
- **Piercing.** Puncturing and impaling attacks, including bullets and monsters' bites, deal piercing damage.
- **Poison.** Venomous stings, poisoned blades, and the toxic gas deal poison damage.
- **Psychic.** A shock to the nervous system, rather than fear or mental damage. But the latter is possible.
- **Radiant.** Radiation or damage on a nuclear level, rather than divine light.
- **Slashing.** Swords, axes, and monsters' claws deal slashing damage.
- **Thunder.** Shockwaves and explosions. Thunder damage is primarily caused by grenades.

Skill Checks

Typical Difficulty Classes

Task Difficulty	DC
Very Easy	5
Easy	10
Medium	15
Hard	20
Very Hard	25
Nearly impossible	30

Art: Unknown
Rules: Mass Effect 5e v1.2.0

VEHICLES

Vehicle Stats

- **Armor Class (AC)** - *Standard*
- **Hull Points (HP)** - *Vehicle health*
- **Shield Points** - *Absorb damage before hull. Can only regenerate in combat via the Restore action*
- **Speed** - *Number of spaces the vehicle can move per turn (combat scale)*
- **Range** - *Distance traveled in a 24-hour period*
- **Minimum Crew** - *Required crew to operate normally (Operating below minimum may impose disadvantage)*
- **Crew Capacity** - *Total number of occupants (crew + passengers)*
- **Cargo Capacity** - *Measured in Megagrams (Mg). 1 Mg = 1,000 kg (2,200 lbs)*
- **Systems** - *Individual ship functions.*
- **Weapons** - *Weapons on the vehicle. (roll then multiply)*
- **Size** - *Size of vehicle, has multiple categories, and special categories for starships.*
- **Cost** - *Listed cost = market value. Military vehicles are not normally available for purchase*

Vehicle Systems

- Systems are functional stations within a vehicle where specific actions are performed.
- Crew must be at the relevant system to use its abilities.
- **Helm** - *Pilot station.*
- **Navigation** - *Required for plotting FTL jumps no matter method.*
- **Weapons** - *Required for Attack action*
- **EWS (Electronic Warfare Suite)** - *Protects against and enables hacking*
- **SSC (Sensors, Scanners, Communications)** - *Scan planets and objects. Communication with ships/planets.*
- **Drive (Engineering)** *Can be used for power redirection.*

Additional Systems & Upgrades

- Ships may include extra systems (quarters, labs, workshops, etc.)
- Installing/upgrading systems:
  - Takes 8 hours of uninterrupted work
  - Can hire help or perform yourself
- Replacing a broken system costs 300,000 or the price of the system in the ship upgrades table, whichever is lower.

Disgruntled Crew

Each month you will need to pay 150 x number of crew x 30 credits, or 1d6 members of crew become disgruntled.

Dealing with Disgruntled Crew:

- Fire the disgruntled crew member. (They will disappear at next habital station)
- Throw the crew member out an airlock. 1d6 crew members become disgruntled in response.
- Provide bonus pay equal to one week's salary (150 x Crew size x 7)
- Provide an extended stay at a port (2 long rests worth)

Months without maintenance

Month	Effect
1	Any checks made at the system are made at disadvantage and any downtime activities completed with the system take twice as long.
2	Roll a d20. On a 5 or less, the system breaks and cannot be used in any way. It must be replaced.
3	Roll a d20. On a 10 or less, the system breaks and cannot be used in any way. It must be replaced.
4	Roll a d20. On a 15 or less, the system breaks and cannot be used in any way. It must be replaced.
5	The system breaks and cannot be used in any way. It must be replaced.

Disgruntled Crew

d20 + crew	Effect
1-5	Nothing happens.
6-8	A fight breaks out between two crew members. Another member of your crew becomes disgruntled.
9-11	One of your disgruntled crew quits the next time you're at port.
12-13	A crew member starts an private email chain that infuriates the other crew. Two additional crew become disgruntled.
14-15	All of your disgruntled crew quit the next time you're at port.
16-17	A crew member forgets to service their system. You must pay 3,000 credits before you can use it again. (If this is the Drive, you ship cannot move between systems)
18-19	A crew member sabotages their system. You must pay 20,000 credits before you can use it again. (If this is the Drive, you ship cannot move between systems)
20+	The crew mutinies. They all become hostile and attack your party.

Disgruntled Crew

d20 + crew	Effect
1-5	Nothing happens.
6-8	A fight breaks out between two crew members. Another member of your crew becomes disgruntled.
9-11	One of your disgruntled crew quits the next time you're at port.
12-13	A crew member starts an private email chain that infuriates the other crew. Two additional crew become disgruntled.
14-15	All of your disgruntled crew quit the next time you're at port.
16-17	A crew member forgets to service their system. You must pay 3,000 credits before you can use it again. (If this is the Drive, you ship cannot move between systems)
18-19	A crew member sabotages their system. You must pay 20,000 credits before you can use it again. (If this is the Drive, you ship cannot move between systems)
20+	The crew mutinies. They all become hostile and attack your party.

STARSHIP COMBAT

Actions

- **Attack - Weapon System:** *Make a ranged attack roll. Do not add your proficiency bonus unless you are proficient with Starship Systems (Weapons).*
- **Targeted Attack - Weapon System:** *Same as normal attack but: Name a system on target. Target get +5 AC. On hit system is disabled and crew at station takes half damage.*
- **Maneuver - Helm:** *DC 15 Vehicle Handling check. Success adds half ship speed to AC until crews next turn.*
- **Hard Maneuver - Helm:** *DC 20 Vehicle Handling check. Success adds double ship speed to AC until crews next turn. All on ship must make Constitution save[a]. On fail disadvantage on next action and no move.*
- **Repair - Anywhere:** *DC 15 Engineering check. Success restores 50 Hull Points.*
- **Advanced Repair - Anywhere:** *DC 20 Engineering check. Success restores 150 Hull Points.*
- **System Repair - Disabled System:** *DC 20 Engineering check. Success restores system.*
- **Restore - Drive:** *DC 15 Engineering check. Success restores 100 shield.*
- **Harden - EWS:** *DC 10 Electronics check. Success until crews next turn all hacking attempt against ship has disadvantage.*
- **Sabotage - EWS:** *Electronics check based on table.*
- **Scan - SSC:** *DC 15 Investigation check. Success means asking the GM a question about taget ship. The GM must tell the truth.*
- **Flee - Navigation:** *DC 14 Science check. Success means moving to another system.*
- **Move - Anywhere:** *Move character to other ship system*

- **Help - Anywhere:** *Other person at your current location gets advantage*
- **Defer to VI - Anywhere:** *Attempt to use a system you are not at. Check is done with a clean 1d20 with no modifiers.*

[a]Personally use DC 20(adjust for ship size) minus how much pilot was over check. EG: pilot rolls 25, making con save 15. Best use is to state this to the pilot when they take action before they roll.

Hacking table

Target	DC	Effect
SSC	10	Target cannot take the Scan action until the start of your next turn.
Helm	12	Target has disadvantage on Maneuver and Hard Maneuver checks until the start of your next turn.
Shields	15	Reduce the targets shields by 1d4 (x50)
Navigatio	18	The target ship cannot Flee.
Weapons	20	Target has disadvantage on Attack and Targeted attack rolls until the start of your next turn.

COMBAT

Shields (Quick Reference)

Start Regeneration (must meet one):
- Take **Hide**, **Dodge**, or **Disengage**
- OR have **full cover** at end of turn

Activation Condition:
- Take **no damage** until start of next turn

Regeneration Effect:
- Gain shield points = **armor regen stat**
- Continues each turn at start of turn

Regeneration Ends If:
- You take damage
- Shields reach maximum capacity

Combat Step by Step

1. **Determine surprise.**
   The GM determines whether anyone involved in the combat encounter is surprised.
2. **Establish positions.**
   The GM decides where all the characters and monsters are located. Given the operatives' marching order or their stated positions in the room or other location, the GM figures out where the adversaries ar - -how far away and in what direction.
3. **Roll initiative.**
   Everyone involved in the combat encounter rolls initiative, determining the order of combatants' turns.
4. **Take turns.**
   Each participant in the battle takes a turn in initiative order.
5. **Begin the next round.**
   When everyone involved in the combat has had a turn, the round ends. Repeat step 4 until the fighting stops.

Combat Actions

Attack
- Make a melee or ranged attack.

Cast a Spell
- Uses casting time (often 1 action). May require action, reaction, or longer.

Dash
- Gain extra movement = your speed. Modified by speed changes.

Disengage
- Movement does not provoke opportunity attacks. Can trigger user shield regeneration.

Dodge
- Attacks vs you have disadvantage (if seen) and advantage on Dexterity saves.
- Ends if incapacitated or speed = 0.
- Can trigger user shield regeneration.

Help
- Grant advantage on ally's next ability check OR advantage on next attack vs target within 2m.

Hide
- Make Dexterity (Stealth) check. On Success gain benefits as unseen attacker.
- Can trigger user shield regeneration.

Ready
- Prepare action or movement with a trigger. Uses reaction when triggered.

Reload
- Replace thermal clip → restore weapon heat.
- **Variant: Rapid Reload** - only if holding only a single weapon.
  - Bonus Action, DC 15 Sleight of Hand.
  - Success: reload normally.
  - Failure: must Reload action.
  - Critical failure: drop clip, lose Action.

Search
- Make Perception or Investigation check.

Use an Object

- Use objects requiring an action (e.g. grenade).

Grapple (Attack replacement)

- Target $\leq$ 1 size larger, within reach.
- Contest: Athletics vs Athletics/Acrobatics.
- Escape: same contest using action.
- Move target: speed halved (unless much smaller).

Shove (Attack replacement)

- Target $\leq$ 1 size larger, within reach.
- Contest: Athletics vs Athletics/Acrobatics.
- Result: knock prone OR push 2m.

Primers & Detonators (Quick Reference)

Optional Rule

Priming

- Certain abilities apply **Primed**

Detonation

- Triggered by detonator abilities
- Ends **Primed** $\rightarrow$ causes explosion

General Rules

- Multiple different primed types allowed
- All detonate simultaneously
- GM determines (or randomizes) order
- Scaling based on primer's source level:
  - 5th, 11th, 17th level improvements

Detonation Effects

Cold (AoE 4m)

- STR save (DC 15 $\rightarrow$ 16/17/18)
- Fail: **Frozen** (1 turn)

Fire (AoE 4m)

- 1d6 fire + burn (1 min, 1d6/turn)
- Action to extinguish
- Scaling: 2d6 / 3d6 / 4d6

Force (Single Target)

- 2d6 force, knockback 6m, prone
- Scaling: 3d6 / 4d6 / 5d6

Lightning (AoE 4m)

- 3d4 lightning
- Scaling: 4d4 / 5d4 / 6d4

Necrotic (Single Target)

- 1d12 necrotic
- CON save (DC 13) or **Stunned** (1 turn)

Radiant (AoE 4m)

- While primed: **Poisoned**
- Detonate: 3d4 radiant
- CON save (DC 15) or poisoned (1 hour)

OTHER VARIANT RULES

Paragon & Renegade

This is a variant rule. You can play without it.

- Give points based on choice and in groupings of 1-5. (More for major story beats.)
- A skill check can be augmented by P/R if you think it makes sense. They gain +1 for every 10 points they have of the appropriate stat.
